

REMARKS

This Amendment is being filed in response to the Final Rejection set forth in the Office Action dated April 17, 2009. Because no new issues or change of subject matter is presented hereby, and further because the amendments presented herein are solely for the purposes of putting this application in condition for allowance, entry of this Amendment pursuant to Rule 116 and passing this application to issue is hereby requested.

OBJECTION TO THE DRAWINGS UNDER 37 C.F.R. 1.83(A)

In the Office Action under reply, the Examiner objected to the drawings because they did not show two features recited in the claims, namely, “one or more cooling mechanisms” and also “gripping components”. These limitations have been removed from the claims in order to place this application in condition for allowance and accordingly, the changes to the claims are believed to have made the objections to the drawings moot.

OBJECTIONS TO THE CLAIMS FOR INFORMALITIES

The amendments to the claims herein eliminate the limitation “gripping components”. Also, the amendments to the claims to appropriately recite the gripping components as “cooling components” as identified in the specification is believed to overcome this objection.

REJECTION OF THE CLAIMS

In the Office Action under reply, claims 18 and 19 were indicated to be allowable and claim 17 was objected to as being directed to allowable subject matter. In response thereto, claim 1 has been amended to incorporate therein claims 15 through 17 and to eliminate any of the material objected to on formality grounds. Accordingly, it is now believed that claim 1 and claims 2 through 17 and claims 20, 21, which are dependent thereupon, are in condition for allowance. Also, claims 18 and 19 have been amended to include clarifying amendments that do not modify the substance of the claim and hence, it is Applicant's belief that these claims remain in condition for allowance. Finally, claims 15 through 17 and claims 22 and 26 have been cancelled without prejudice and accordingly, there are no longer any claims directed to rejected subject matter remaining in this application. Accordingly each of the remaining claims 1, 2, 4, 6 through 14 through 21 are in condition for allowance and notice of this effect is respectfully requested.

CONCLUSION

Applicants respectfully submit that all outstanding requirements are addressed and are now either overcome or moot. Favorable consideration resulting in prompt allowance of this application is respectfully requested.

No fees are believed to be due in connection with the filing of this paper. If, however, the Commissioner deems any additional fee(s) to be now or hereafter due in connection with this application, authority is given to charge all such fees to Deposit Account No. 19-4709.

In the event there are any questions or additional information be required, please
